Profile

Ahmed is a Problem-Solver with comprehensive background in building and maintaining responsive websites, my strengths include strong problem-solving abilities, effective communication skills, aura, and a knack for translating business requirements into technical ready to use solutions.

Experience

REACT JS DEVELOPER, ELIZABETH MATTHEW GLOBAL | MAR 2020 – SEPT 2024

- Go here and check the under-construction Application - <https://emgapp.netlify.app/> which includes security features like Password hashing, JWT Tokens, CORS, Request Interceptors and Protected routes
- This test App has improved the company's visibility by 60% increase since the turn of the year and also helped the company in solving business issues, by showing potential customers the documentation and policies needed to engage in business transactions.
- While still under construction this responsive web application has generated 85% upward traffic to company's email log.
- Working both on my own and collaboratively with a team to build robust web application
- Detail-oriented problem-solving skills with strong technical knowledge of how computers and web servers operate for the company

REACT JS DEVELOPER, TENDA FINANCE | JAN 2023 – MAY 2023 (INTERNSHIP)

- Use of Express as a back-end web application for Node.js and MongoDB Atlas to store and manage data
- Planned website development, converting mock ups into usable web presence with
- JSON Web Token, JavaScript, AJAX, RESTful APIs, Babel and Web Pack coding
- Improved tools to boost user interaction and deliver design versatility
- Developed websites to work properly across Microsoft, Google and Mozilla browsers
- Developed a full stack web application using modern technologies such as React, Node.js, and MongoDB

REACT JS DEVELOPER, DELAF SYSTEMS AND SOLUTIONS | SEP 2021 – FEB 2022 (FREELANCE WORK)

- Built and maintained the front end of a Radio web application which included video and audio contents
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Updated old code bases to modern development standards, improving functionality and data storage control with MySQL
- Designed REST calls using React to streamline user interface performance with SEO principles.

Education

BACHELOR'S DEGREE, INDUSTRIAL CHEMISTRY - 2015 – UNIVERSITY OF ILORIN

Technical Skills

- Proficient at JavaScript, React, MongoDB, WordPress, Adobe Suite, JQuery, Version Control (Git) and Node JS.
- Intermediate at Next JS, Prisma, React Native, Agile Development, Figma, PHP and MySQL.
- Proficient at CSS and its beautiful libraries (Tailwind, Styled-Components, Material-UI, Bootstrap etc.).
